### **I. The 2022 Annual Report, the Summary of the Annual Report for 2022 and the Final Financial Accounts for 2022**

An ordinary resolution will be proposed at the 2022 AGM to approve the 2022 Annual Report, the summary of the annual report for 2022 and the final financial accounts for 2022, the text of which is set out in the 2022 Annual Report.

### **II. Investment Plan for 2023**

An ordinary resolution will be proposed at the 2022 AGM to approve the investment plan for 2023. The Board proposed that the total amount of investment plan for 2023 is RMB728.80 million. The investment plan for 2023 does not constitute a disclosure under the SZSE Listing Rules, the Hong Kong Stock Exchange Listing Rules and other relevant regulations.

Once the above resolution is approved at the 2022 AGM, the Board proposes to delegate the authorization to Mr. Li Guiping, the executive Director, chief executive officer and president of the Company, and his authorized persons to approve the projects in the approved investment plan for 2023 and sign relevant legal documents.

The Board has proposed at the 2022 AGM to delegate the approval authority for the investment plan for 2023 and the updated investment plan to the Board within the scope of the approval authority as stipulated in the Articles of Association.

##### ***1. Guarantee for controlled subsidiaries***

Based on the needs of business development and production and operation, the Group intends to provide a total balance of credit guarantee of not more than an equivalent of RMB2.0 billion for its subsidiaries within the scope of the Company's consolidated statements in 2023. ## LETTER FROM THE BOARD

---

2. *To provide financial support for the Group's sales business, the Group provides guarantees to its distributors and customers for the purpose of product sales. Details are as follows:*

- (1) To provide financial support for vehicles sales, the Group, for the purpose of product sales, provides a total balance guarantee of not more than an equivalent of RMB3.2 billion to its customers to secure purchasers' credit loans from financial institutions, of which, the maximum balance of guarantee provided to customers for financing from financial institutions affiliated to China International Marine Containers (Group) Co., Ltd. ("CIMC") is RMB820 million.
- (2) To provide financial support for the Group's real estate sales in vehicle parks, the Group, for the purpose of product sales, provides its customers with an accumulative balance guarantee of not more than an equivalent of RMB40 million to secure purchasers' loans from financial institutions. Selling self-built sales and maintenance service stores is one of the main businesses of vehicle park enterprises. Customers apply for loans from financial institutions to purchase the stores. Before obtaining the Real Estate Ownership Certificate, the vehicle park enterprises provide credit guarantees for customers to obtain loans from financial institutions to purchase the stores. The guarantees provided by the vehicle park enterprises can be discharged upon the customers mortgaging the stores to the financial institutions after they obtain the Real Estate Ownership Certificate and complete the mortgage registration procedures.

The resolution on the guarantee matters shall be valid from the date of consideration and approval at the 2022 AGM until the next relevant resolution takes effect. The Board proposes at the 2022 AGM to authorize Mr. Li Guiping, the executive Director, chief executive officer and president, or his authorized person to sign the above-mentioned documents related to all guarantees of the Company.

The above-mentioned transactions related to the maximum balance guarantee of RMB820 million provided for customers to secure financing from financial institutions affiliated to CIMC have been considered and approved by the Board of Directors, the Supervisory Committee and the general meeting of the Company. For details, please refer to the Company's announcements dated 25 August 2021 and 29 September 2021 and the Company's circular dated 13 September 2021.

Save as disclosed above, the applicable percentage ratios calculated for the purpose of Chapter 14A of the Hong Kong Stock Exchange Listing Rules in respect of each external guarantee are not more than 5%, and none of the counterparties are the connected persons of the Company. Accordingly, the Company is of the view that the aforesaid external guarantees did not constitute the discloseable transactions and/or connected transactions under Chapter 14 and/or Chapter 14A of the Hong Kong Stock Exchange Listing Rules. The Company will comply with the applicable provisions of Chapter 14 and/or Chapter 14A of the Hong Kong Stock Exchange Listing Rules if the applicable percentage ratios in respect of each external guarantee are more than 5% or the guaranteed parties are the connected persons of the Company at that time when the Company enters into an agreement on external guarantees.

### (II) External Guarantees and Related Party/Connected Transactions

An ordinary resolution will be proposed by the Company at the 2022 AGM to seek for the approval of the provision of guarantees by the Group to non-bank financial institutions under CIMC in relation to customer financings for the purchase of products from the Group in 2023. The maximum daily balance of such guarantees is RMB820 million.

The Company held the 2021 10th meeting of the first session of the Board, the 2021 4th meeting of the first session of the Supervisory Committee on 25 August 2021, and the first extraordinary general meeting for 2021 (“**2021 First EGM**”) on 29 September 2021, which considered and approved the Proposed Entering into of the Financial Guarantees and Performance Bond Framework Agreement and the Continuing Connected/Related Party Transactions, approved the signing of the Financial Guarantees and Performance Bond Framework Agreement between the Company and CIMC, and set the maximum daily balance of RMB820 million for financial guarantees provided to non-bank financial institutions under CIMC by the Group in relation to customers’ purchase of products from the Group for the years ended 31 December 2022, 31 December 2023 and 31 December 2024. For details, please refer to the announcements published by the Company on 25 August 2021 and 29 September 2021 and the circular published by the Company on 13 September 2021.

After the maximum daily balance of financial guarantees from 2022 to 2024 being approved at the 2021 First EGM, the Company shall conduct review procedures on the financial guarantees provided to non-bank financial institutions under CIMC in relation to customers’ purchase of products from the Group, and make relative disclosure, under the SZSE Listing Rules, the Self-Regulatory Guidelines for Listed Companies of the Shenzhen Stock Exchange No. 2 – the Compliant Operation of Listed Companies of the ChiNext Market and other relevant requirements. The proposed maximum daily balance for financial guarantees provided to non-bank financial institutions under CIMC by the Group in relation to customers’ purchase of products from the Group in 2023 was RMB820 million, which is consistent with the annual cap approved at the 2021 First EGM.

As CIMC is the controlling shareholder of the Company, CIMC is a related party of the Company pursuant to the SZSE Listing Rules. The financial guarantees and performance bonds provided to non-bank financial institutions under CIMC by the Group in relation to customers’ purchase of products from the Group, constitute related party transactions of the Company, and non-bank financial institutions affiliated to CIMC are the guarantors. In view of the above, the Board meeting and the general meeting have considered and approved the annual cap on financial guarantees for such related party transactions for the next three years, and the transactions and terms under the Financial Guarantees and Performance Bond Framework Agreement remain unchanged, so that the proposed maximum daily balance of RMB820 million for financial guarantees provided in relation to financings of non-bank financial institutions affiliated to CIMC in 2023 is not subject to review procedures on connected transactions under relevant provisions of the Hong Kong Stock Exchange Listing Rules.

---

## LETTER FROM THE BOARD

---

### IX. Proposed Grant of General Mandate to Issue New Shares

To ensure that the Board of Directors has the flexibility and discretion to decide on the individual or joint allotment, issue and disposal of additional A Shares and/or H Shares and the terms and conditions of issue as appropriate, in the light of market conditions and the needs of the Company, it is proposed that a new general mandate (the “**General Mandate**”) be granted to the Board of Directors at the 2022 AGM so as to allot, issue and dispose of additional A Shares and/or H Shares of the Company individually or jointly. The exercise of the above mandate by the Board of Directors during the relevant period will obviate the need for the Company to convene a general meeting or a class general meeting in the case of issuing H Shares. In the case of issuing A Shares, the Company is no longer required to convene a class general meeting. If, under relevant regulations in the PRC, a general meeting of all Shareholders is required to be convened notwithstanding the general mandate to issue shares, the approval of the general meeting of all Shareholders is still required, but the approval of Shareholders at the class general meeting of A Shares and H Shares is not required, respectively.

The General Mandate to issue Shares is specifically as follows.

1. The Board of Directors is hereby authorized to determine the individual or joint allotment, issue and disposal of additional A Shares and/or H Shares of the Company (including securities convertible into A Shares and/or H Shares) and the terms and conditions of issue, in the light of market conditions during the relevant period:
  - 1) The class and number of shares to be issued, allotted and disposed of;
  - 2) Pricing mechanism and/or issue price (including price range) of stocks;
  - 3) The opening and closing time of the issuance;
  - 4) The class and number of shares to be issued to existing shareholders; and/or
  - 5) The making or granting of offers, agreements, options or conversions which may require the exercise of such rights.
2. The number of A Shares or H Shares to be issued, allotted and disposed of (whether pursuant to options, conversions or otherwise) as the Board of Directors may decide, individually or jointly, pursuant to the mandate referred to in item 1 above shall not exceed 20% of the number of A Shares and/or H Shares in issue as at the date of consideration and approval of this proposal at the 2022 Annual General Meeting, respectively. As at the Latest Practicable Date, the issued share capital of the Company comprised 1,453,680,000 A Shares and 563,920,000 H Shares. Subject to the passing of the General Mandate at the 2022 AGM and on the basis that no further shares will be issued prior to the 2022 AGM, the Board of Directors will be entitled to issue no more than 290,736,000 A Shares and 112,784,000 H Shares.

3. The Board may make or grant offers, agreements, options or conversions during the relevant period which require or may require the exercise of such rights after the end of the relevant period.
4. **III. TERMINATION OF CERTAIN A SHARE PROCEEDS-FUNDED PROJECTS**

The Company intends to terminate the sub-projects of the “Light Tower Plants Upgrade and Construction Project”, namely the Coating Production Line Upgrading and Technical Transformation Project, the Yangzhou CIMC Tonghua Digital Semi-trailer Upgrading Project, and the New Marketing Construction Project. The details are as follows:

**(I) Termination of the Coating Production Line Upgrading and Technical Transformation Project*****1. Reasons for terminating the Coating Production Line Upgrading and Technical Transformation Project***

The Coating Production Line Upgrading and Technical Transformation Project is one of the sub-projects of the “Light Tower Plants Upgrade and Construction Project”, which is mainly implemented by CIMC Jiangmen with a construction period of 10 months. In the feasibility study stage of the project, in order to upgrade the production line and achieve cost reduction and efficiency improvement, the Company intends to implement the Coating Production Line Upgrading and Technical Transformation Project, with a total investment of RMB60 million, which was originally proposed to be paid out of the proceeds. As of 31 December 2022, the investment progress of the project was 0%.

***2. Reconsideration of the project***

In accordance with Article 6.3.4 of the Self-regulatory Guidelines No. 2 for the Companies Listed on the Shenzhen Stock Exchange – the Standardized Operation of Companies Listed on the ChiNext Market, the Company reconsidered the Coating Production Line Upgrading and Technical Transformation Project.

During the implementation of the project, the market demand was weak due to the economic downturn. The existing production capacity of the coating line and supporting production lines of the Company could meet the current order demand of the Company. Meanwhile, the Company actively implemented high-quality development strategies. Through continuous optimization of resource allocation, the Company could realize the resource coordination for parts coating in the Group in the Greater Bay Area. In order to improve the efficiency in the use of the Proceeds, maximize the interests of the Shareholders, and avoid the loss of funds and resources, the project is no longer suitable for the current development plan of the Company. After careful study, the Company intends to terminate the Coating Production Line Upgrading and Technical Transformation Project.

**(II) Termination of the Yangzhou CIMC Tonghua Digital Semi-trailer Upgrading Project*****1. Reasons for terminating the Yangzhou CIMC Tonghua Digital Semi-trailer Upgrading Project***

The Yangzhou CIMC Tonghua Digital Semi-trailer Upgrading Project is one of the sub-projects of the “Light Tower Plants Upgrade and Construction Project”, which is implemented by Tonghua Special Vehicles with a construction period of 18 months. In the feasibility study stage of the project, in order to meet the demand for mechanized rapid loading and unloading of goods in the future and produce side curtain-side trailer and wing-opening semi-trailer products, the Company intends to implement the Yangzhou CIMC Tonghua Digital Semi-trailer Upgrading Project with a total investment of RMB100 million, of which RMB85 million was originally proposed to be paid out of the Proceeds. As of 31 December 2022, RMB2.0303 million of the Proceeds was used for the project, with the investment progress of 2.39%. The arrangement of the general assembly production line for van bodies in the “Light Tower Plants Upgrade and Construction Project” was formed after the investment in the early stage and will continue to be used for the production of van bodies.

***2. Reconsideration of the project***

In accordance with Article 6.3.4 of the Self-regulatory Guidelines No. 2 for the Companies Listed on the Shenzhen Stock Exchange – the Standardized Operation of Companies Listed on the ChiNext Market, the Company reconsidered the Yangzhou CIMC Tonghua Digital Semi-trailer Upgrading Project.

During the implementation of the project, the market demand did not grow as expected, due to the slowdown in the construction of infrastructures in China such as cargo loading and unloading platforms as a result of the macroeconomic impact, and the influence of economic downturn on the palletized transport industry. In order to improve the efficiency in the use of the Proceeds, maximize the interests of the Shareholders, and avoid the loss of funds and resources, the project is no longer suitable for the current development plan of the Company. After careful study, the Company intends to terminate the Yangzhou CIMC Tonghua Digital Semi-trailer Upgrading Project.

**(III) Termination of the New Marketing Construction Project*****1. Reasons for terminating the New Marketing Construction Project***

The implementer of the New Marketing Construction Project is Guangzhou Sales, with a construction period of 36 months. In the feasibility study stage of the project, in order to comprehensively develop and operate accessories businesses under proprietary brands and establish a new online and offline marketing system, the Company intends to implement the New Marketing Construction Project with a total investment of RMB153.1 million, of which RMB100 million was originally proposed to be paid out of the Proceeds. As of 31 December 2022, the investment progress of the project was 0%.

## **2. *Reconsideration of the project***

In accordance with Article 6.3.4 of the Self-regulatory Guidelines No. 2 for the Companies Listed on the Shenzhen Stock Exchange – the Standardized Operation of Companies Listed on the ChiNext Market, the Company reconsidered the New Marketing Construction Project.

During the implementation of the project, in order to match the Company's product structure and the changing trend of the market supply chain system, the Company postponed the investment progress of the project. Meanwhile, due to the impact of the economic downturn, according to the market situation and the experience in the implementation of pilot projects, the Company believes that there will be a risk of increasing uncertainty if the project is continued to be implemented under the original business model. In order to improve the efficiency in the use of the Proceeds, maximize the interests of the Shareholders, and avoid the loss of funds and resources, the project is no longer suitable for the current development plan of the Company. After careful study, the Company intends to terminate the New Marketing Construction Project.

## **(IV) Impact of the termination of the above projects on the Company**

The proposed termination by the Company of the above projects is a reasonable decision made in full consideration of the changes in the market environment and the actual situation of the Company, and will not adversely affect the Company's production and operation activities or damage the interests of the Company and all Shareholders, especially minority Shareholders.

After the Company terminates the above projects, the Proceeds originally proposed to be invested in the projects and interest thereon will be continued to be deposited in the proceeds account for management before confirming specific projects. The Company will actively plan and identify high-quality A Share Proceeds-funded projects. Meanwhile, the Company scientifically and prudently analyzes the feasibility of the projects.
